

Illinois Heartland Library System

TO: IHLS Board of Directors
 FROM: Leslie M. Bednar
 DATE: April 22, 2022
 RE: FY2023 Draft Operational Plan (First Reading)

The Illinois Heartland Library System is guided by our operational plans which are a primary component of the annual System Area and Per Capita Grant (SAPG). We begin the draft each January by evaluating progress on the current year's plan. This review informs our work the second half of the fiscal year and helps us determine which projects and goals will carry forward to the new fiscal year.

New Approach to Strategic Planning

In our second decade as a system, we took a different approach to planning that expands the development period of the operational plan. It also grows the pool of possible projects by staff working across departments and bringing together colleagues who interact with member libraries in different capacities. Utilizing the creativity and experience of our talented and capable staff, the internal planning committee identified several new projects/services we will evaluate more fully in FY2023. All are based on our understanding of member needs, staff expertise, and knowledge of future trends:

- Train librarians to become leaders in community outreach and engagement
 - Libraries are central agencies in their communities and we want to give our members the tools to be successful in that endeavor
- Create an outreach/community engagement department or committee
 - Discover how we can position our organization to make the most of our member interactions
- "We Love Libraries" marketing toolkit
 - Create an online depository of material for our members to use in efforts to seek funding, sponsors, partnerships, and grants
- Mobile Library of Things
 - Investigate what items our members need on an occasional basis that we can provide and share through a mobile service
- Mobile Memory Lab
 - A one-stop digitization service for members of the community to capture local history and preserve family memories

Stakeholder Involvement

Member and other stakeholder involvement in the planning process is essential to the success of IHLS. The operational plan is reviewed by committees and the board in April, is posted for public comment soon after the April board meeting, and is revised and approved by the board in May.

IMAGINING TOMORROW ~ DELIVERING POSSIBILITIES TODAY!

The Illinois State Library evaluates the plan and grants final approval.

Members of the policy and executive committees have offered feedback on the FY2023 Draft Operational Plan. We share that input and staff response on the [Board Intranet](#). Please [provide additional observations and questions](#) and our staff will respond. We will use this tool as part of the discussion at next week's board meeting.

Thank you for your thoughtful consideration.

C. Delivery

Delivery has come a long way since the formation of IHLS 10 years ago. The Operational Plan serves as a guide to where delivery going in its constant quest to provide the best, most efficient ways of service to our member libraries.

Delivery still takes seriously those ideas from the Statewide Delivery Committee. As we move forward into FY2023, they are still the basis for many of our goals. When paired with our member libraries' needs, these provide a solid roadmap.

The focus of delivery in many ways will remain the same:

- Ongoing compliance with the recommendations of the Illinois Statewide Delivery Committee.
- Continued access to five-day a week delivery model.
- Provide accurate and consistent delivery to member libraries.
- Provide accurate sorting of library materials.
- Standard training for delivery staff across all hubs.

Delivery will continue to explore technology and the benefits it provides for the department. From enhanced data collection to the ability to notify drivers remotely about changes, we utilize an in-house developed app to analyze delivery information. For FY2023, we are looking to build upon the app to provide even more opportunity to use data from SHARE to create on the fly routes, which also feeds into our "Access to five-day a week" delivery for all our members.

Another technology piece that is being investigated, is the Automatic Material Handler (AMH) or as it is referred to often, the sorting machine. It is anticipated that this machine would not only benefit IHLS in savings, but our member libraries as well.

Additional actions will include:

- Remain on the American Library Association (ALA) Reference and User Services Association (RUSA) Physical Delivery Group to be able to jump start new ideas from participants who do delivery in different ways.
- Utilize the Delivery Working Group (DWG), which is made up of member libraries and IHLS staff, as a resource for potential feedback for delivery on potential projects.
