C. Delivery

Delivery and Resource Sharing coexist to make the transfer of items from one library to another efficient, effective and seamless to the library user. In FY2019, IHLS moved away from volume-based delivery. Currently a library either receives 5 days a week or whenever items are ready to be delivered or picked up. By embracing this model, libraries of all sizes are receiving the same level of service.

Delivery is always looking for ways to continue to improve. Using iPads to gather data daily allows IHLS to generate reports in a timely fashion. At any time, IHLS can pull the data to evaluate volume between libraries, which helps to ensure adequate space in our delivery vehicles for needed pickups.

The Illinois State Library delivery recommendations are still the basis for all that delivery does. IHLS delivery staff will also follow trends in the broader delivery field in order to increase awareness of industry trends that will support efficiency and provide cost savings.

Changes are coming. The current L2 (Library Learning) database will be redesigned. Delivery uses L2 heavily. IHLS will work with colleagues statewide to ensure that the delivery components of the new database efficiently meet the needs of the end users.

The focus of delivery services provided by the IHLS in FY2020 will include:

- Ongoing compliance with the recommendations of the Illinois Statewide Delivery Committee
- Creation of small training modules for labeling, packing a tub and best practices for delivery
- Presenting the IHLS delivery model to other stakeholders
