

Illinois Heartland Library System

---

## FY 18 Membership Overview

518 Member Agencies

31 Academics Libraries  
 226 Public Libraries  
 232 School Districts  
 29 Special Libraries

In FY 17, 4 library agencies were suspended, they were:

- Woodlawn High School
- North Green CUD #3
- Centreville Public Library
- Our Lady of the Snows Retirement Community

In an effort to streamline our membership lists statewide, three agencies were merged with parent organizations. Those agencies were:

Robert Morris University in Springfield (merged with 8 other campuses in RAILS)  
 University of Illinois at Chicago in Urbana (merged with 4 other campuses in RAILS)  
 East St. Louis Learning Resource Center (merged with SIU-E).

The FY17 Annual report will also include the number of site visits done by system staff throughout the year, the URL connected to the page on our website that deals with non-resident fees and information about boundary changes that may have occurred for our public libraries during FY 17.

In FY 18

We have had a request for information regarding system membership from a resident of Washington Park, where the library has not been open for several years and was suspended from system membership pre-merger and Westfield, where the library has never been a system member and currently does not qualify. I also visited the Northside Children's Center Library in Springfield, that had expressed interest in membership.

We have already completed 28 site visits for the current fiscal year.

For the 6<sup>th</sup> year, the annual certification of libraries will begin in January and continue through the 31<sup>st</sup> of March. Coupled with this is the required completion of the ILLINET Interlibrary Loan Traffic Survey.
