Illinois Heartland Library System Vendor Discount

Thomas Klise/Crimson Multimedia is celebrating our 52nd year as a one-stop supplier for library video game titles, audiobooks, and media processing. Founded in Peoria, Illinois in 1966, we remain a small, women-owned and operated business that works exclusively with schools and public libraries.

TK/CM has emerged as the premiere supplier for library video games. We are dedicated to making video game collection development easier with tools like:

- A monthly newsletter to announce new releases
- Customized video game standing order programs; no minimums, no contracts
- Titles guaranteed to circulate; we cull out one-installation, STEAM installs, and titles that require a paid subscription
- Collection development assistance based on your preferred platforms and ratings
- Rental-ready processing to create a branded, consistent look
- A variety of security cases to suit your specific needs

Discounts: We would like to extend the following discounts to members of the Illinois Heartland Library System:

- 15% discount on all audiobook standing order programs
- 10% discount on custom media processing
- 2% discount on video game titles
- Unlimited free publisher replacement cases for video games

Standing order programs are completely flexible; you can start and stop at any time. There are no minimum ordering requirements to receive the discounts noted above.

We would love to work with your library. Please visit our website at www.crimsoninc.com to learn more. Or contact company president, Molly Klise, directly at 800-937-0092 or at molly@klise.com.
