SHARE Report

SHARE staff and committees continue to refine policies, practices, and procedures established during the early years of SHARE's existence. For example, the new SHARE Operational Guidelines will be posted on the SHARE website soon. The Operational Guidelines include all policies and procedures for governance, circulation and resource sharing, and bibliographic and cataloging standards, and which all member libraries need to have immediate access to.

Efforts are underway to secure commitments in the form of Annual Agreements, for member libraries continuing their membership in SHARE, as well as participation in various eResource consortia (the Cloud Library, Zinio, Gale database, Ebsco databases). To date, only one library has indicated that they may not be able to continue their membership in SHARE, due to the State Budget Crisis.

Transitional Member Progress Report

Libraries Ready for Profiling in Polaris: As we have reached the limit of libraries that can be added using Dream Grant funds, all transitional members have completed this step in the process of Going Live on Polaris and becoming full members of SHARE.

Libraries Ready to Barcode: All but four of these libraries are scheduled for barcoding training in April and May, so far, and will have their Barcoding SWAT Team hours completed by the end of June. Three of the libraries are second-guessing their decision to join SHARE. If they choose not to join at this time, there are six additional libraries that would like to take their place in the queue.
