

Operations Board Report June 2015

Delivery Accomplishments:

In the process of hosting the online auction for our surplus vehicles. Currently we have bids totaling \$3950 on 5 vehicles. The auction ends Monday, June 22.

Attended our All Staff Day where we presented a wonderful presentation, honoring our delivery staff. Stacie Bushong did a wonderful job of creating the presentation which maybe be found at <https://animoto.com/play/UNNdVBQWm3ovjtzpHYiEFA>.

Met with Mark Hatch (RAILS Operations Director) in Burr Ridge. Together we came to consensus on different forms that both systems use. It will allow us to truly compare apples to apples when needed.

Delivery Outreach

Spoke with different libraries regarding the one stop per agency requirement from the Statewide Delivery Committee recommendations.

Participated in Connect with Leslie.

Partnered with CARLI library to resolve damaged items. In doing so, have opened a door for partnering further with a driver/staff exchange program where a driver will work for a day in a library and a staff member from the library will work in a system hub. This is geared to enhance job empathy and provide a real world experience for both the driver and the staff member.

Building Updates

Champaign

Appraisal for the Champaign hub came in at \$620,000.

Du Quoin

Roof leaks, parking lot hazards, and weed overgrowth is continuing. Will be meeting with our lawyer to discuss options.

Edwardsville

Striping of the parking lot will be done by the end of the month.

Respectfully submitted,

Susan Palmer
