

Additional Videoconference Locations

Four libraries that received videoconferencing equipment through a grant from the Illinois State Library were called to determine their interest in being a VTEL site for future IHLS Board meetings. The new sites would be added for the November Board meeting. All sites have agreed to keep their buildings open during the meeting, to post meeting agendas in compliance with the Open Meetings Act, and to provide staff for technology troubleshooting. IHLS IT staff will test the videoconference set up prior to the November board meeting.

These additional sites will make a total of ten locations (including Helen Matthes PL in Effingham) for board participation.
